DISCOVERY

WELCOME TO PORPOISE PROTECTORS!

Welcome to WDC's Porpoise Protectors Award for children 8 years old and under. You will learn about dolphins and porpoises and what you can do to help them.

Complete all three sections: **DISCOVERY**, **ACTION** and **FUNDRAISING** to receive your special Award.

HARBOUR
PORPOISE

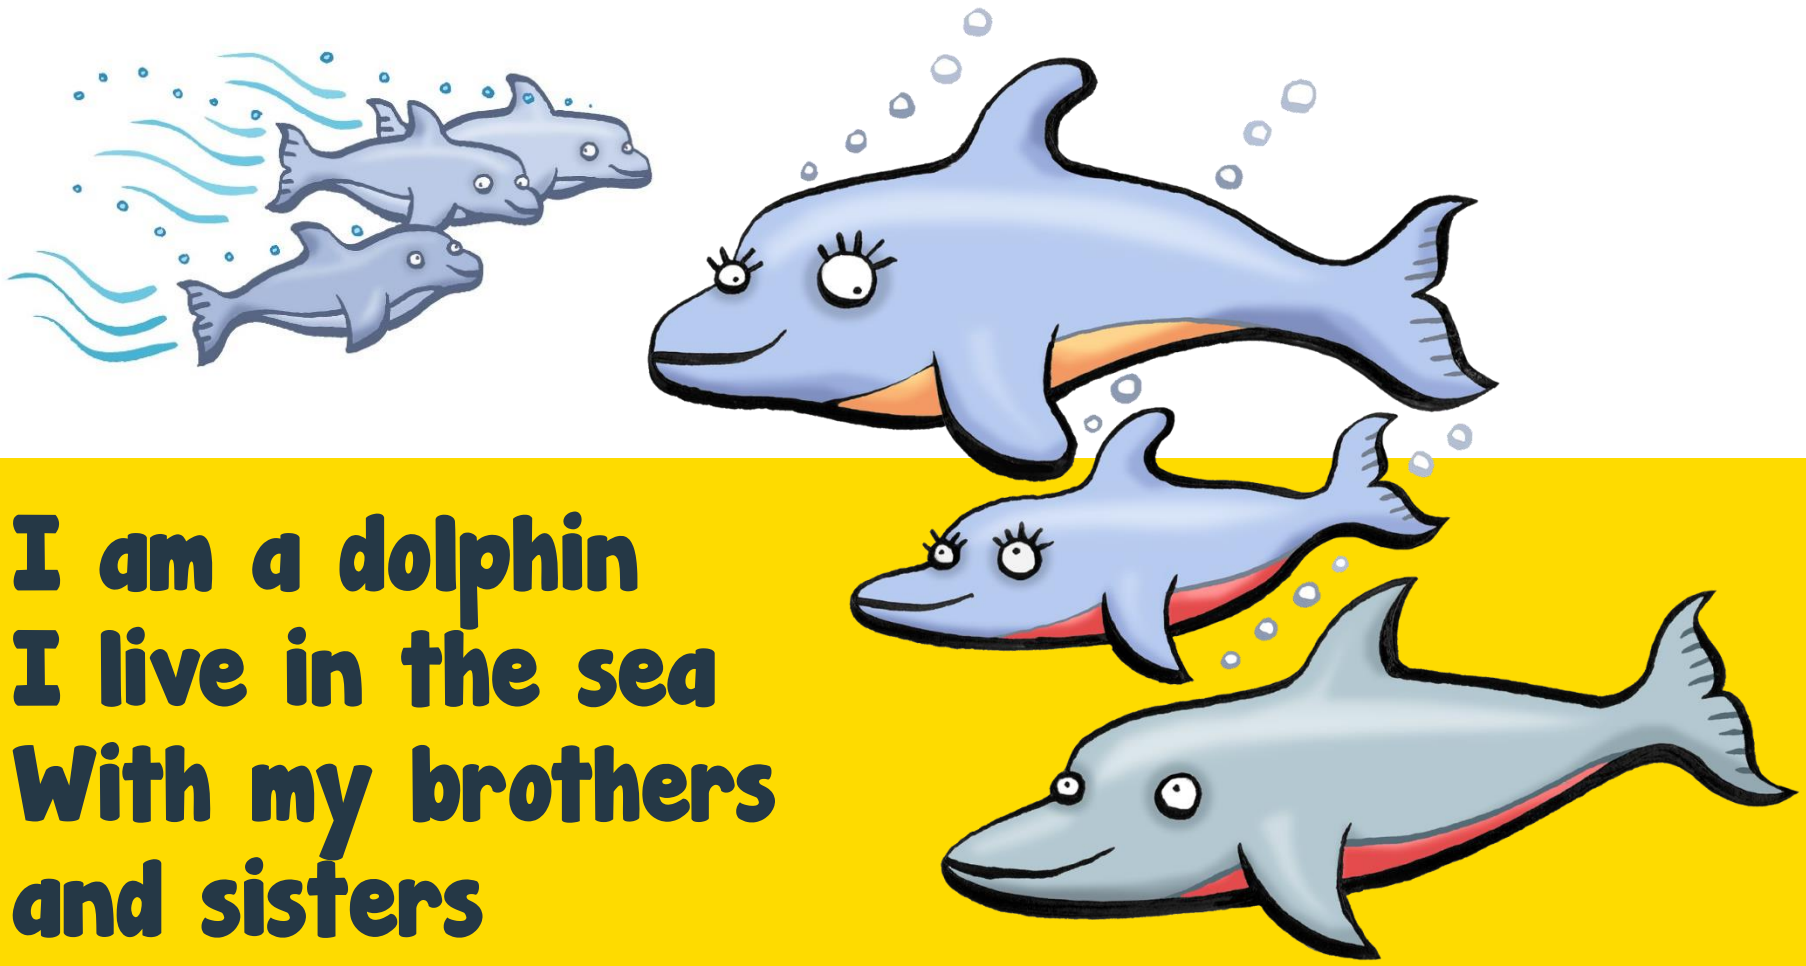

Did you know? There are 90 different types of whales, dolphins and porpoises. Only 7 of these are porpoises; the porpoise family look very similar to dolphins and are hard to tell apart. Porpoises are just a bit smaller, have blunt shaped noses, small dorsal fins and flat-shaped teeth. Examples are Harbour porpoise, Dall's porpoise and Spectacled porpoise.

**I am a dolphin
I live in the sea
With my brothers
and sisters
And our whole family**

PORPOISE PROTECTORS: DISCOVERY

**I swim up to
breathe
And down
to feed
I catch fish
and crabs
Amongst the
seaweed**

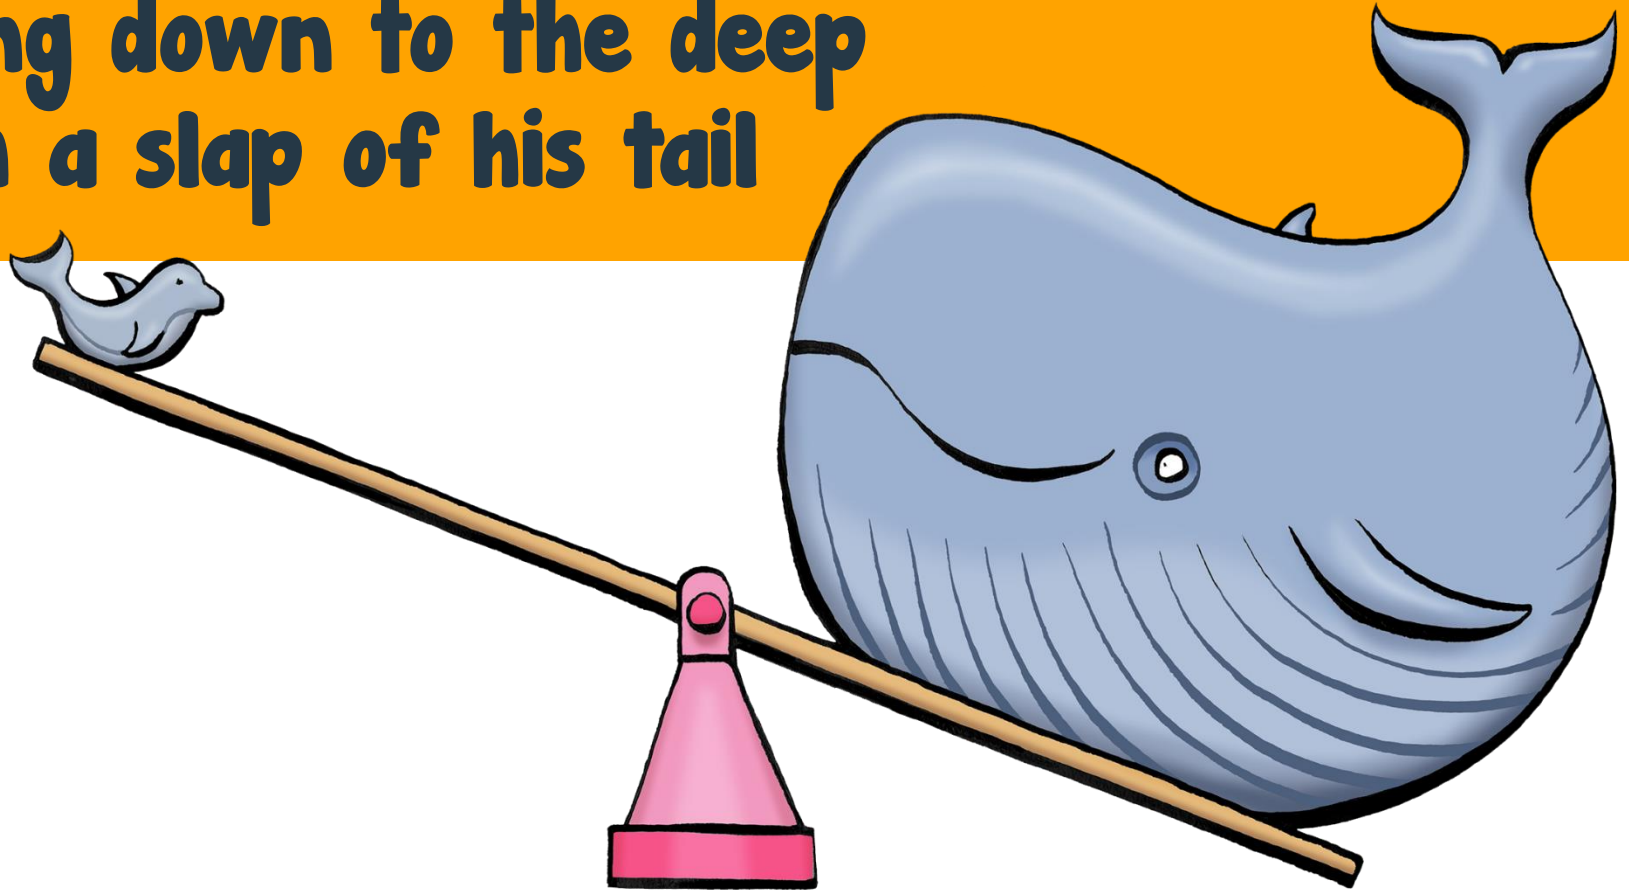

PORPOISE PROTECTORS: DISCOVERY

**WHALE AND
DOLPHIN
CONSERVATION**

**When we are exploring the ocean
We sometimes see a huge whale
Diving down to the deep
With a slap of his tail**

PORPOISE PROTECTORS: DISCOVERY

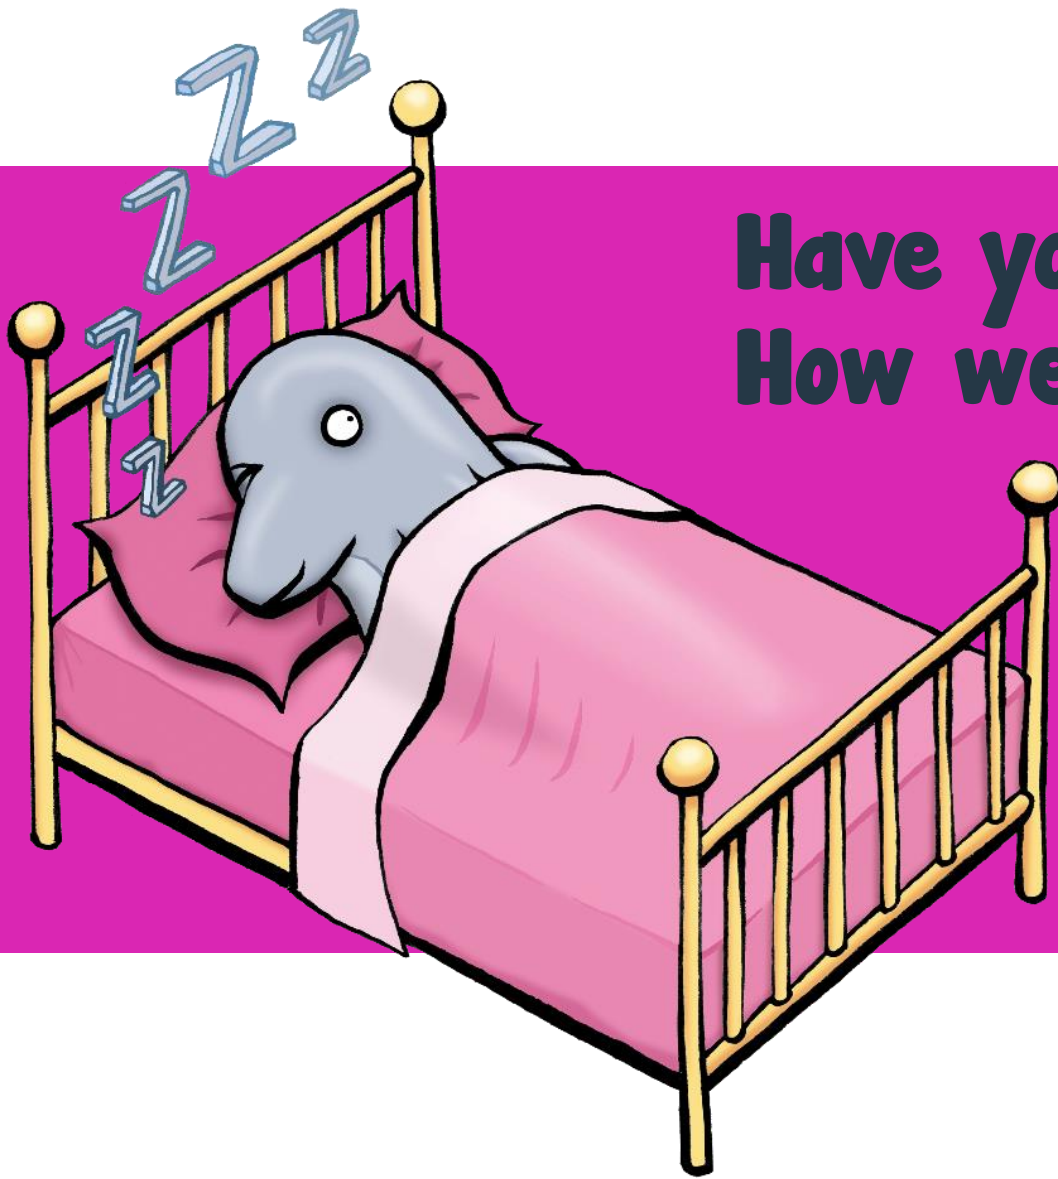

WDC { WHALE AND
DOLPHIN
CONSERVATION

**While he is swimming
The whale sings a song
He swims faster
than me
And he is very,
very long!**

PORPOISE PROTECTORS: DISCOVERY

DISCOVERY CHALLENGES

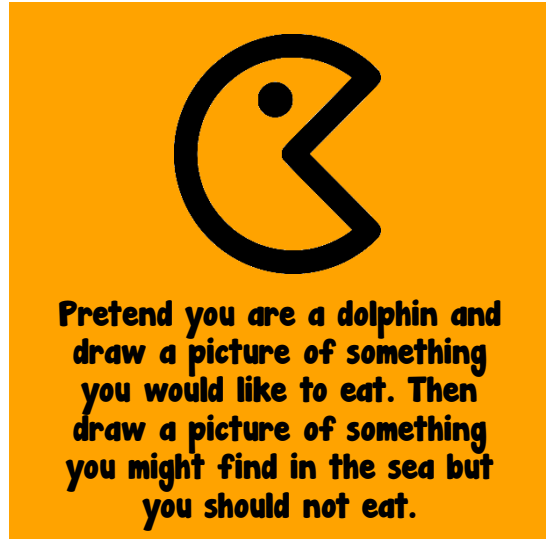

Now complete one of these challenges!

Don't forget to take photos of your challenge!

Write about or draw a picture of the ocean you would live in if you were a whale or dolphin.

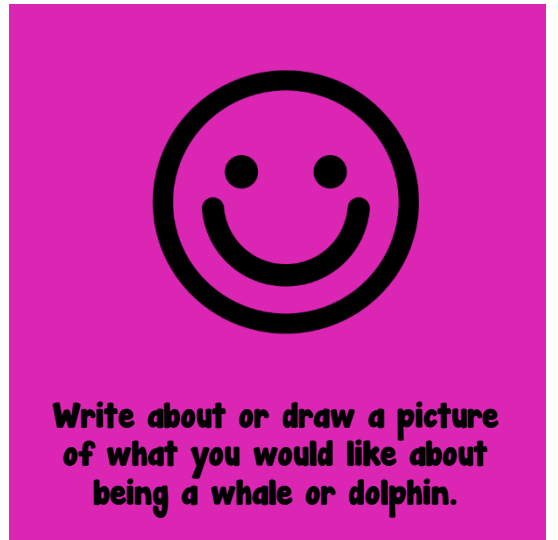

Pretend you are a dolphin and draw a picture of something you would like to eat. Then draw a picture of something you might find in the sea but you should not eat.

Make a whale! - We have included some photos and how-to guides for inspiration!

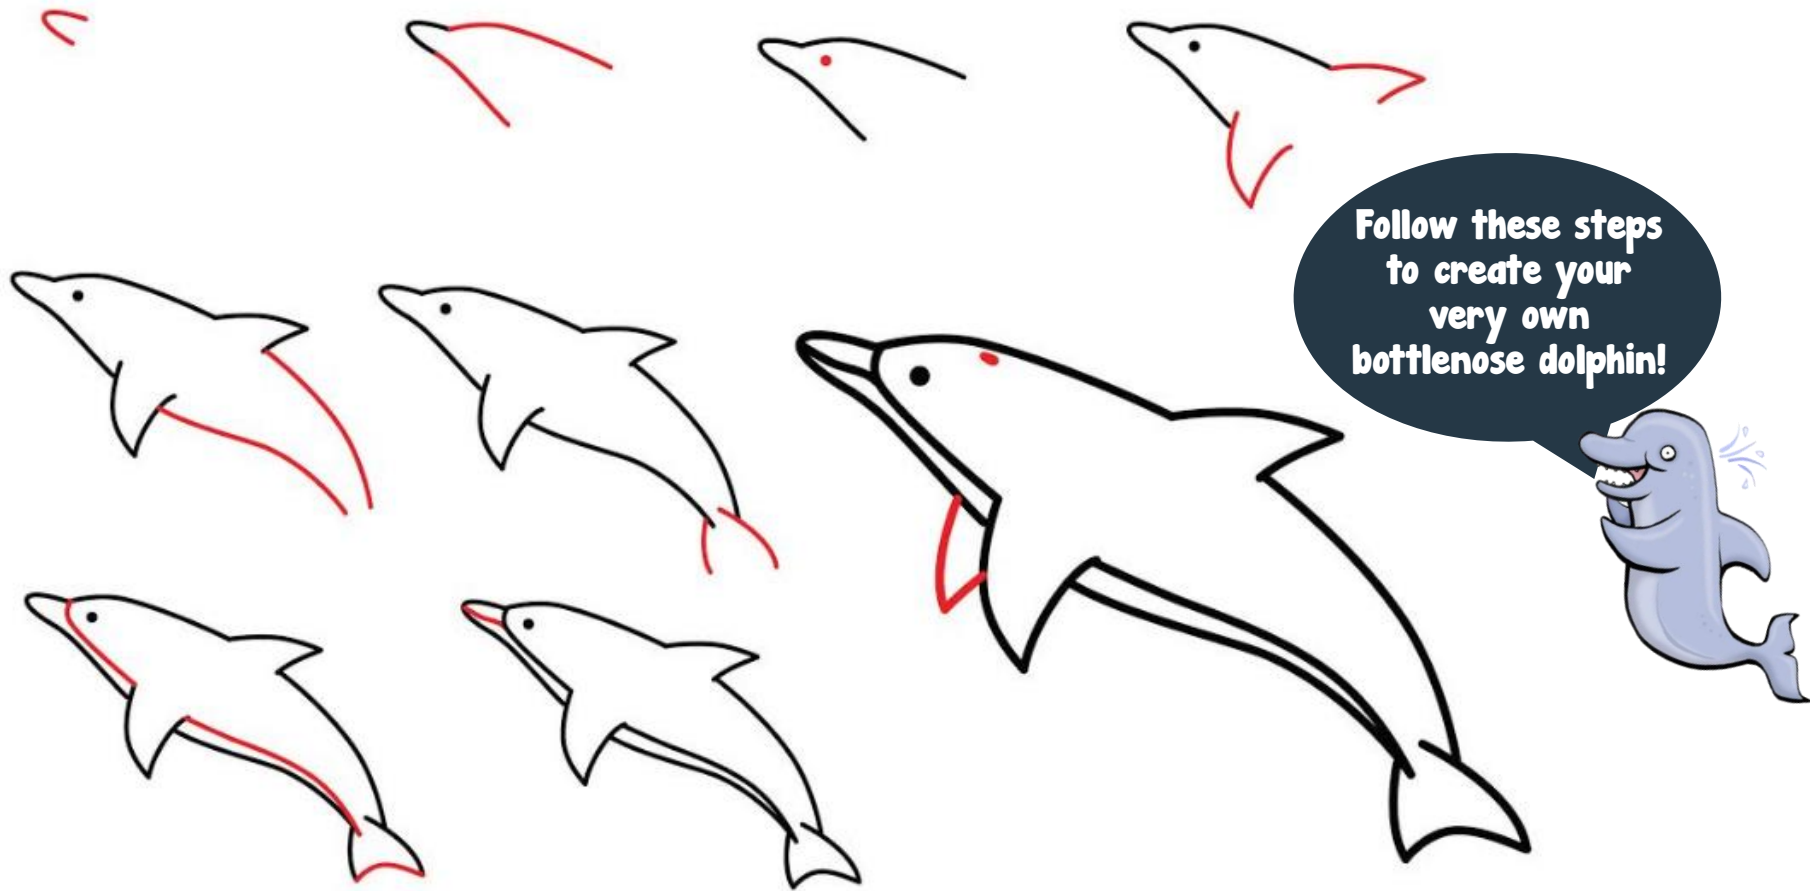

Write about three things people could do to make life better for whales and dolphins.

Write about or draw a picture of what you would like about being a whale or dolphin.

HOW TO DRAW A DOLPHIN

WHALE AND DOLPHIN CONSERVATION

MAKE A WHALE KAZOO

You need:

- A toilet roll tube
- String or elastic band
- Scissors
- Blue or green card/paper or white paper coloured-in
- Glue or double-sided tape
- Colouring pencils/pens
- Cotton wool (optional)

1. Cut a circle out of baking paper
2. Wrap it over the top of your toilet roll and secure it with a piece of string or elastic band.

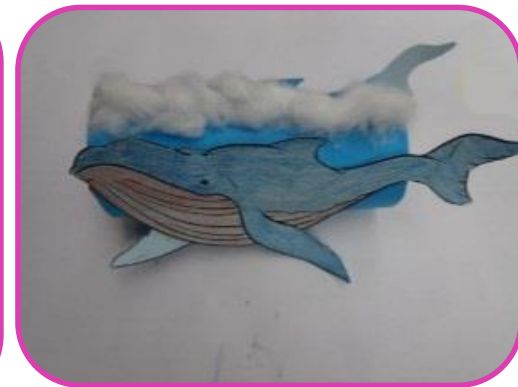

3. Cut out a rectangle of blue or green card/paper about the same length of your toilet roll
4. Wrap it around and glue it in place
5. Use a pencil to make two or three holes along one side (this will be the bottom of your kazoo)

A kazoo is a simple musical instrument!

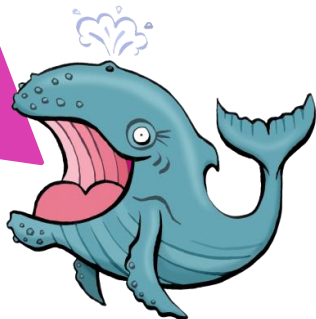

6. Cut out the whales from the template and colour them in
7. Stick them to the sides of your kazoo - be careful not to cover the holes
8. Stick some cotton wool along one edge of the kazoo to represent the waves
9. Place your mouth over the open end and sing or hum into your kazoo!

You need:

- Egg box
- Paint and paintbrush
- Glue or double-sided tape
- Pipe cleaner
- Scissors
- Card
- Felt tip pen
- Googly eyes (optional)

MAKE AN EGG BOX WHALE

Stick the flippers, tail and eyes on to your whale. If you don't have googly eyes, you can draw them on. Ask an adult to make a hole in the top of the whale's head (blowhole).

Cut out one section of an egg box. You might need an adult to help you. Paint it blue and set it to one side to dry.

Fold the pipe cleaner in half and push it through the hole. Twist it so it can't come back through the hole.

Draw and cut out your whale's flippers and tail on to the card. If you don't have blue card, you can colour or paint it in blue.

Bend the ends of the pipe cleaners to look like a whale's spout!

WDC { WHALE AND DOLPHIN CONSERVATION

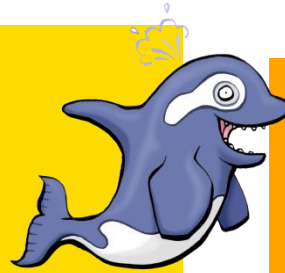

MAKE AN ORIGAMI WHALE

If you'd like to make a dolphin instead, here's a video to show you how!

You will need:

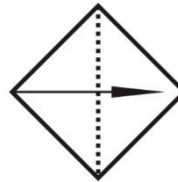

- A piece of square paper
- Scissors
- Pen

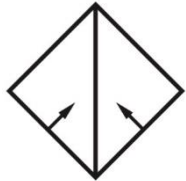

Step 3: Now fold the top point down to meet the top edges of the sides you folded in step 2. It will now look like a diamond.

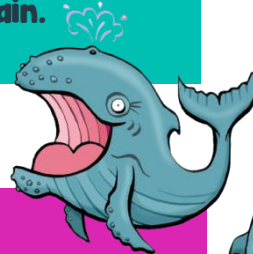

Step 1: Place your paper with a point at the bottom. Fold in half from left to right and unfold again.

Step 4: Fold your origami in half and crease well

Step 2: Fold the lower left and right sides so they meet at the middle crease and press new folds. You should now have a kite shape.

Step 5: Turn your whale onto its side. Fold the narrow end up and cut carefully down the middle to make a tail fluke. Draw eyes and a smile. Now you can decorate your whale or write a message on him!

WDC { WHALE AND DOLPHIN CONSERVATION

MAKE A RECYCLED WHALE PLANT POT

Around the world 60 million plastic bottles are thrown away every day! If they get to the sea they can hurt whales and dolphins. Why not turn one into a whale plant pot?

You'll need an adult's help to make this whale!

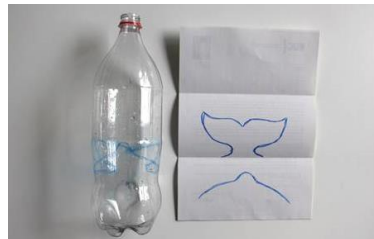

You need:

- A large plastic bottle
- Sandpaper
- Acrylic paint
- Paintbrush
- Scissors
- Thick felt tip pen

Paint the whale white all over. Once it is dry add other colours, like black for an orca, grey for a humpback whale or blue for a blue whale!

Use the felt tip pen to mark where to cut out the whale. You might like to draw a template for the dorsal fin and tail flukes on paper first.

Don't forget to add eyes and a mouth!

Ask an adult to cut out the whale and sand down any rough edges with sandpaper.

Finally you can fill the whale with soil and add plants or seeds!
